

## Histórico de CCTV iVisioConsole – Manual iVisioConsole\_

Las cámaras CCTV en iVisioConsole mantiene su histórico un tiempo mayor a 180 días, mimo histórico que puede ser consultado en iVisioConsole en el apartado de Histórico VTMIS.

The image shows a screenshot of the iVisioConsole software interface. The main window displays a map with various camera locations marked. A 'Historico VTMIS' window is open, showing a calendar for December 2023 and a 'Re-Play' section with a play button and a progress bar. To the right of the calendar are 'Datos para reproducir' (Data to reproduce) options, including 'Datos Meteorologicos', 'Radio Comunicaciones', 'Camaras CCTV' (checked), and 'Acciones Operativas'. Below the main window, a separate window titled 'iVisioConsole' shows a camera control panel for 'Camara 00'. This panel includes a 'Control PTZ' section with directional buttons (T, L, C, R, B) and zoom controls, as well as 'Modo Dia' and 'Modo Noche' buttons. The iVisio logo is prominently displayed on the right side of this control panel.

El histórico del VTMIS permite recuperar video de diferentes cámaras CCTV
